Save time by accessing software solutions directly from your MFP.

Marketplace Conditions

- Business applications are moving to the cloud.
- Multifunction devices are becoming more intelligent and extensible.
- Additional endpoints to cloud connectivity are simplifying workflows and increasing productivity.

Target Customers, Markets, & Opportunities

- Users of DocuSign ranging across a wide variety of departments, such as HR, legal, procurement, and finance.
- Worldwide SMB and enterprise markets.

Key Product Features

- Scan, save, and add key fields and recipients before sending or printing documents straight from your DocuSign account.
- Use predefined templates, utilize contacts stored in your DocuSign address book, and designate recipient signing order to edit and finalize documents.

“The Cost Per Device Seems High...”

- The app only needs to be installed on devices using DocuSign.
- Time is money, and the time saved more than covers the cost of the app.

Without HP Workpath...

The alternative is the multi-step process outlined below:

1. Scan to email files.
2. Move attachments to the appropriate folder.
3. Upload documents to DocuSign.
4. Edit the documents to add signature info.
5. Send the prepared documents for signing.

Customer & Segment Specific Propositions

- Simplify workflows for your DocuSign users by allowing them to execute key tasks directly from HP MFPs.
- Scan and print documents directly to and from your DocuSign account with ease - no computer or mobile device required.
- Avoid completing tasks back at your desk through simple steps at the printer panel.
- Take full advantage of the capabilities of your HP MFP.

Benefits

Security & Accuracy

- All transactions with scanned documents take place within DocuSign.
- Removes the insecurity of keeping scanned documents in email inboxes or deleted items.
- No need to store documents on a laptop or desktop.
- Removes several steps and the potential for human error during those steps.

Cut Your Time by 70%

- Scan, send, and print documents with faster digital workflows.
- Remove the need to move back and forth between printer and desk to manage documents.
- Save 50% of the time previously required to scan and send 4-5 page documents.
