

Connect **Moodle** to HP Workpath

Powered by
in time tec

Save time by accessing software solutions directly from your MFP.

Marketplace Conditions

- Educational applications are moving to the cloud.
- Multifunction devices are becoming more intelligent and extensible.
- Additional endpoints to cloud connectivity are simplifying workflows and increases productivity.

Target Customers, Markets, & Opportunities

- Users of Moodle, such as administrators, teachers, managers, and students.
- K-12 and higher education institutions.

Key Product Features

- Easy access to Moodle directly from HP MFPs.
- Scan and upload private files directly from the printer panel.
- Access and print private files, course files, assignments, and course records directly from the printer panel.

“The Cost Per Device Seems High...”

- The app only needs to be installed on devices using Moodle.
- Time is money, and the time saved more than covers the cost of the app.

Without HP Workpath...

The alternative is the
multi-step process
outlined below:

1. Scan to email files.
2. Move attachments to the appropriate folder.
3. Login to Moodle account.
4. Upload files to Moodle account.

Customer & Segment Specific Propositions

- Easy access and improved collaboration for your Moodle users by allowing them to execute key tasks directly from your MFP device.
- Scan to and print from your Moodle account with ease - no computer or mobile device required.
- Avoid completing tasks back at your desk through simple steps at the printer panel.
- Take full advantage of the capabilities of your HP MFP.

Benefits

Security & Accuracy

- All transactions with scanned documents take place within Moodle.
- Removes the need to store files on a laptop, desktop, or email inboxes.
- Removes several steps and the potential for human error during those steps.

Cut Your Time by 70%

- Scan documents into Moodle in a fraction of the time required by traditional MFP workflows.
- No need to run course or assignment workflows through your inbox.
- Save 70% of the time previously required to upload 2-3 page documents into Moodle and reduce 90% of manual efforts.
