## Success Stories

### Sandy the Bookkeeper

Sandy spent 90% of her time entering bills - 10 minutes for each one - manually sorting, scanning, emailing, uploading, and typing everything into QuickBooks Online. Now, with direct scanning and accurate OCR in the Connect to QuickBooks Online app, she:

- Cut her payables input time in half from 10 to 5 minutes per document
- Increased her accuracy and avoided potentially time consuming and costly mistakes

While the extra 5 minutes might not seem like much at first, it added up fast. By cutting the amount of time Sandy spent scanning and processing documents, she freed up 15-20 hours a week to contribute to her organization in a whole new way.
